White Card 180gsm Dry Peel adhesive

A bright white, matt coated card with a smooth finish giving good quality print results using ink-jet & toner (laser/copier) systems. The material is designed for use on most laser printers (although this should be tested and approved) & copiers, especially desk-top machines. Ideal for printing promotional or business cards where each individual label can be printed with different variable information.

Face material properties

Grammage	180 gsm	Caliper (thickness)	205 microns
Total product caliper			275 microns

Adhesive

An adhesive which, when removed from it's backing sheet has no adhesion. This makes it suited to applications where non-adhesives tags would have been previously used.

Minimum application temp.	+10°C
Storage range once applied	-20°C to +70°C

Backing

A bleached kraft paper with good lay-flatness & stability
Thickness 60 microns Grammage 55 gsm

Environmental

Paper components are either ECF or TCF grade manufactured using pulp from sustainable, managed resources. All dimensions are nominal target specifications, but may vary. All products within our range are manufactured under ISO9001:2008
