

www.a4laserlabelsuk.co.uk

A fluorescent coated paper, designed specifically for laser printers & copiers. In some cases the material can be printed monochrome on an inkjet printer, but testing for this is needed. This material is ideal for variably printed information as well as for eye-catching promotional work.

Caliper (thickness)	81 microns	Grammage	80 gsm
---------------------	------------	----------	--------

A clear permanent, acrylic based adhesive with good tack & adhesion on a wide range of surfaces. Suited to high temperatures (through laser printers & copiers). The dry edge adhesive helps to prevent any adhesive build up & allow better feeding through the printer.

Minimum application temp. +5°C

Storage range once applied	-20°C to +80°C
----------------------------	----------------

A lightweight kraft backing with good lay-flatness

Caliper (thickness)	55 microns	Grammage	45 gsm
---------------------	------------	----------	--------

Paper components are either ECF or TCF grade manufactured using pulp from sustainable, managed resources. All dimensions are nominal target specifications, but may vary. All products within our range are manufactured under ISO9001:2008
