Gloss White Polyester with a permanent adhesive

A gloss white polyester (PET) specifically designed for use on 'hot fuse' printer systems. Some slight curl may occur on exiting the printer but this will flatten quickly. This material is primarily used in the area of 'long life' durable, tracking labels.

Face material properties

Grammage 72 gsm

Caliper (thickness) 55 microns

Adhesive

A clear permanent, acrylic based adhesive with good tack & adhesion on a wide range of surfaces.

Minimum application temp. +5°C

Storage range once applied -20°C to +100°C

Backing

A one side clay coated, bleached kraft paper with good lay-flatness & stability

Thickness 89 microns Grammage 100 gsm

Environmental

Paper components are either ECF or TCF grade manufactured using pulp from sustainable, managed resources. All dimensions are nominal target specifications, but may vary. All products within our range are manufactured under ISO9001: 2008
