Translucent Paper with a permanent adhesive

A semi transparent paper specifically designed for use on 'hot fuse' printer systems. Ideal for applications using variable information printing such as address & inventory labels where a natural no label look is required. Due to the high moisture content of the face material, some curl may occur on exiting the printer. This will flatten, but multi-fed sheets should be avoided.

Face material properties

Grammage 63 gsm

Caliper (thickness) 55 microns

Adhesive

A clear permanent, acrylic based adhesive with good tack & adhesion on a wide range of surfaces.

Minimum application temp. 0°C

Storage range once applied -20°C to +80°C

Backing

A one side clay coated, bleached kraft paper with good lay-flatness & stability

Thickness 110 microns Grammage 98 gsm

Environmental

Paper components are either ECF or TCF grade manufactured using pulp from sustainable, managed resources. All dimensions are nominal target specifications, but may vary. All products within our range are manufactured under ISO9001:2008
